DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 2-9 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Rumph (5496037).

Claim 1,8: Rumph teaches providing a plurality of playing pieces, weapons, a playing surface, game pieces being placed on playing field (Figs.2-4, 1:52-57), players taking turn to move (3:8-9), further teaches a step of a first player piece eliminating a second player piece (2:3-10) inherently teaching leaving weapon pieces of the second player. Examiner notes that Rumph does not structure the limitations using words such as “leaving the second weapon on the playing surface” but clearly indicates the possibility/capability of any first player piece/weapon piece eliminating the second player piece/weapon piece.

Art Unit: 3711

One of ordinary skill in art at the time the invention was made would have suggested the step of leaving the weapon piece on the surface while eliminating the player piece.

Claim 3-7: Rumph teaches a player piece having more than one weapon pieces (1:52-57) and leaving more than one weapon piece on the surface while eliminating player piece (2:3-10).

Claim 9: Players moving on surface according to roll of die (3:9-10). It is well known that a die has numbers 1 through 6 and it is inherent that a player piece can move one space.

Claim Rejections - 35 USC § 103

4. Claims 2,10 rejected under 35 U.S.C. 103(a) as being unpatentable over Rumph in view of Contento (3963243).

Rumph teaches all limitations except that it does not teach retrieving weapon pieces back.

Contento teaches a player piece (38) reunited with it's weapon piece (35,36) that was lost before in the game.

Whereas some players like to play short duration games others like to play games for longer time using same pieces again and again.

In order to make the game last longer, it would have been obvious to allow players to retrieve their lost pieces.

One of ordinary skill in art at the time the invention was made would have suggested allowing players to retrieve their lost pieces.
